

Seely Primary & Nursery School

Co Headteachers: Mrs S Pearce & Mrs J Newton

Thursday 26th May 2022

Dear parents and carers,

Environmental workshops

In recognition of World Earth Day, which was celebrated on April 22nd this year, we will be participating in environmental workshops delivered by 'Green Up Your act'. A virtual introductory assembly will be followed by workshops which will take place on Monday 27th, Tuesday 28th and Wednesday 29th of June. These will be delivered (one workshop per year) to years 1 – 6 inclusive and will focus on teaching the children valuable skills to enable them to protect the environment.

Each fully supervised workshop is approximately 45 minutes in length and designed to be informative whilst also enabling the children to produce an item made from recycled material which they can take home.

We require a voluntary donation of £1.10 per child for the workshops to go-ahead and this will need to be paid electronically to school via the school gateway app (under the "School Trips / Events" category please) by Friday 17th June.

Unfortunately, if the required donations are not received the workshops may have to be cancelled.

Kind regards

Miss Hitchin

Year 3 teacher and Geography coordinator
